

OREGON HEALTH & SCIENCE UNIVERSITY NEUROSCIENCE POST-BACCALAUREATE TRAINING

Beginning September 2018, join us for a one year post-baccalaureate training opportunity in the neurosciences! Scholars will be matched by their interests with a laboratory for an in-depth research experience. Other benefits include:

- A competitive Research Assistant salary & health benefits
- Preparation for successful application and completion of a graduate program
- Mentored support from Faculty, Postdoctoral Fellows, and current Grad Students
- Skill-building enrichment sessions via journal clubs, courses, and seminars related to research necessities (e.g., data analytics and writing) & scientific identity (e.g, presenting and communication)
- Strong letter of recommendation provided by research mentor and OHSU graduate program director supporting graduate applications

Apply online by June 1, 2018 @ <http://bit.ly/OHSUneuro>

ELIGIBILITY

- Recent graduate from a 4-year college (or graduating senior)
- Identify as an individual from an NIH underrepresented group
- Commitment to one year training in neuroscience
- Interest in obtaining a graduate degree (PhD)

Send questions to Post-Bac Director
Letisha R. Wyatt, PhD (WYATTL@ohsu.edu)

Training At - a - Glance

Neuroscience Post-Baccalaureate Training
SEPTEMBER 2018 • PORTLAND, OREGON

FALL TERM

Scholar Orientation & Bootcamp
Graduate Program Application Prep
Neuroscience Journal Club

WINTER TERM

Submit Graduate Program
Application(s)
Bi-weekly Research Skills Enrichment
Graduate Course (optional)

SPRING TERM

Graduate Program Interview(s)
Bi-weekly Professional Identity
Enrichment
Graduate Course (optional)
Completion of Research Paper
Research Week Presentation

****YEAR 'ROUND****

Mentor Meetings
Events with Diverse Scholars at OHSU
and in the Portland area

NEUROSCIENCE @ OHSU

TRAINING PHILOSOPHY

The research you do as an OHSU Post-Baccalaureate Scholar is conducted in labs at the Vollum Institute making up the Neuroscience Graduate Program (NGP) and the Graduate Program in Behavioral Neuroscience. Each program with a large faculty diverse in expertise, aims to train predoctoral students in modern neuroscience concepts and techniques.

Created by Peter van Driel
from Noun Project

AREAS OF STRENGTH

Biophysics of Channels & Transporters
Gene Regulation
Glial Biology
Synapses & Circuits
Sensory Systems
Developmental Neuroscience
Neurobiology of Disease
Cognitive Neuroscience
Neurobiology of Motivated Behavior & Addiction

EVENT HIGHLIGHTS

The Neuroscience Graduate Program offers an annual 2-day retreat for students and faculty at Timberline Lodge on Mt. Hood, followed by a “boot camp” covering neuroscience methods for incoming 1st year students. Scholars of the OHSU Post-Baccalaureate program will participate in both of these events!
